

STEAM Event on March 10 Exposed Over 200 Students and Parents to STEAM Careers/Education In Our Area

On Thursday, March 10, 2016, over 200 students, parents and educators attended the STEAM (Science, Technology, Engineering, Arts and Math) Pathways Evening at Binghamton University's Innovative Technologies Complex.

The evening was designed to increase awareness and interest in STEAM careers, as well as provide information to youth and parents regarding the pathways needed to achieve these careers.

The event featured exhibits and presentations by local STEAM businesses (including BAE

Systems, IBM, Red Barn Technology Group, McIntosh Labs, The Raymond Corporation, KEYSTONE ASSOCIATES Architects, Engineers and Surveyors, LLC and Lockheed Martin), opportunities to meet with students from both SUNY Broome as well as Binghamton University, and information regarding career opportunities in Science, Technology, Engineering, the Arts, and Mathematics.

This event was sponsored by the Greater Binghamton Education Outreach Program (GBEOP), Broome-Tioga BOCES (New Visions Engineering Academy), School to Careers Partnership of Broome and Tioga Counties, Eastern Southern Tier STEM HUB, Binghamton University and SUNY Broome.
