

Employee Health Screening Checklist for COVID-19 Symptoms

If you answer **YES** to **ANY** of the below symptoms and cannot attribute them to another health condition, do not report to work. Stay home and call your HR contact to report symptoms.

By coming to work every day, you are representing to your employer and fellow colleagues that you have performed this screening and have no symptoms.

Health Screening Questions

Have you had any of the following symptoms since your last day at work or the last time you were at your workplace that you cannot attribute to another health condition?

Do you have:

- ▶ Fever (100.4°F or higher), or feeling feverish?
- ▶ Cough?
- ▶ Shortness of breath or difficulty breathing?
- ▶ Chills?
- ▶ Repeated shaking with chills?
- ▶ New sore throat?
- ▶ New muscle aches or pains?
- ▶ New headache?
- ▶ New loss of smell or taste?
